

REAL ESTATE MAN CREATES FALSE IMPRESSION

Saskatoon Representative of
Subdivision Agency not
Giving Wainwright
Just Deserts

**MAKES STATEMENT OF
FOOLISH CHARACTER**
South Wainwright is Partic-
ular Subdivision Being
Misrepresented

Crooked subdivision agencies which engage in a campaign of misrepresentation have a sea of fair sailing, for there is no law which says that they cannot fabricate, pervert, and deceive an unsuspecting public. They should be punished. The clauses of the unwritten law should be referred to, and a penalty of at least six months, twice a year, for a period of one generation as a minimum, imposed on all transgressors. They should be made dance and the tune should be played by a judicial and cold-blooded fiddler.

Time was, when the National Townsite & Colonization Co., who are offering South Wainwright for sale, would not tolerate deceptive advertising by any of their sub-agents. But events have lately gone to show that they allow one of their representatives in Saskatoon to practise as a past master in the art of misrepresentation. His practices are not in accord with the preachings of his company, for the advertising of that company has been straight-forward in many respects and above board. It is hardly likely that the sooner the services of this particular Saskatoon man are dispensed with, the sooner prospect purchasers will gain confidence and the longer will the company retain whatever confidence has already been reposed in them.

A. E. Mills of the Wainwright Realty Co., was in Saskatoon last week, and had occasion to call on a representative of the N. T. & C. Co., desiring information in regard to South Wainwright. Mr. Mills did not disclose his identity but listened attentively to the flow of "dope," handed out by this particular salesman. He was informed that every street of any account in South Wainwright was graded; the C. N. R. had acquired a station site on the property; a flour mill would soon be established thereon; the town council had purchased a school site from his company; the residences of H. V. Fieldhouse, Dr. Watson, J. L. Gerow and even his own (Mr. Mills) were located in South Wainwright. He even stated that a big slough ran through the town and used this as a means of knocking the original townsite. In fact Mr. Mills found out more of Wainwright in a few minutes than he has during his actual residence here of nearly four years.

As a matter of fact, South Wainwright is today what it was a year ago, the bald prairie with a few improvements made by Harry Linper, the original owner. Except for two sod shacks, no residences are built as yet. And certainly a slough does not run through the original townsite. We are forced to believe that this individual did not know even the truths of Wainwright and constructed his line of talk to suit his own ends. No wonder he was shocked when Mr. Mills informed him that he was a citizen of Wainwright and was a member of the executive of the board of trade, besides being a prominent real estate agent here.

WILL C.N.R. ASSIMILATE ACTIONS OF THE G.T.P.?

Eventually Circumvent the Town
with Branch Line from
Bruderheim

MANY OPINE SUCH IS CASE
Survey Parties Now Located East
of Here and Run in a
Southerly Course

After noting the manner in which Wainwright has been side-stopped by the G. T. P. in regard to branch lines, it is not at all surprising to learn that the preliminary survey of the line between Vermilion and Medicine Hat has been preliminarily located eight miles west of here.

Engineers are now engaged on survey work at this distance east of town and in a direct course to the southern terminus of the Bruderheim-Medicine Hat line. It is stated that by taking this course an easy crossing of the Battle River will be afforded and at a cost less than the original estimate.

However, this survey is but the first preliminary and before any line is definitely located, at least three surveys of this kind are made.

PLANT WHEAT AT \$3 RUSHEL

Mr. E. L. Brook, who resides on a homestead near Green-shields, left here last week for points in Oregon, where he will be engaged for the next few months. Mr. Brook is one of Wainwright's most enthusiastic farmers and will this year seed one hundred bushels of Gorton Pedigree Seed at a cost of \$3 per bushel. This will not form the total amount of his seed.

PRACTICAL MILL MAN IS COMING

Practical Miller from Minneapolis
Will Arrive Here Tomorrow

Following a telegram, forwarded to C. E. Bird & Co., the practical millers of Minneapolis, who are considering leasing a flour mill at this point, Mr. C. E. Bird will arrive here from Minneapolis tomorrow, according to a telegram in reply, which was received last night by S. E. James, President of the local board of trade. Mr. Bird will go into the matter with the town council and the board of trade.

**May Manufacture Gasoline
Engines at this Point**

Messrs. Cassidy & Cooley have lately been appointed local agents for the Gray Gasoline engines which are manufactured in Ontario. Mr. Cassidy, who claims that this brand of engine is hard to beat, states that he may soon start manufacturing these engines at this point.

The Ladies Aid of the Methodist Church will hold their regular afternoon tea at the home of Mrs. O. E. Peterson on Wednesday, April 3rd. All are cordially invited.

South Wainwright as a subdivision offers one of the best investments in any young town of the West and can very well be attached to the town without misrepresenting it. Furthermore, it is our own firm belief that if Mr. McCormack, the manager of this company, was aware of such a state of affairs, he would very soon rid himself and his company of this individual, who will eventually do more harm than good.

Wainwright's First Fall Fair Sept. 17.

September 5th. Spoken of Before
But Date was not
Correct

Agricultural Fair dates have at last been definitely decided on and the first to be held here will take place on September 17th. There has been some conflict as to dates and this announcement has been finally received as definite by Secretary Ross of the local agricultural society. Other towns will observe the following dates: Edgerton, Sept. 13th; Irran, Sept. 10th; Viking, Sept. 24th; Holden, Sept. 20th; Toddfield, Sept. 27th; Chauvin, Oct. 4th.

FRENCH SETTLERS ARRIVE FROM QUEBEC

J. O. Bonnier of Montreal Has Arrived
on Scene and Will Manage
Interests of Quebec and
N.W. Land Co.

**"WE MUST BE SUCCESSFUL,"
SAYS MANAGER BONNIER**

Activity in agricultural pursuits has begun and outfits in the district are now busily engaged preparing for spring seeding. Among these are the employees of the Quebec and North West Land Syndicate, who landed here last week and who are now at work on the land of that company north of the town.

J. O. Bonnier, formerly of Montreal, has been in the interests of the company and to say the least he is a five-wire manager of which that syndicate might well be proud. The next day after his arrival here, he had men cutting brush on the company land and getting the land in proper shape for the big tractor engine of forty-five horse power, which will be used in tearing up the soil. Mr. Bonnier is an enthusiast and believes that there is no better land to be found in Alberta than that on sections 21 and 27, which were purchased by himself and Mr. Quinn last year. His intentions for the season might better be described by his own words.

"Our land is the best in this vicinity and if it can be made to pay, we intend getting results. We have already purchased several horses, yet the main work will be done by our forty-five horse power engine, which will draw the plows, two land packers, six disc harrows and a drag, thereby preparing the ground in one operation for seeding. We expect to break about seventy acres a day and will seed as many acres as we can properly prepare. We have five competent and experienced farmers with us and they're going to work. You can rest assured that they won't sit on the fences smoking their pipes, when there's work to do. We came here to work and make a success of our undertaking. Too much money has been spent to enter this business in a half-hearted manner and we must succeed."

Mr. Bonnier will seed the acreage in flax, barley and oats and may also put in a certain amount of wheat. At least 600 acres will be sown with flax and as many more as can be properly prepared for this particular grain.

Do not neglect your eyes. Give them attention and care. Consult M. Mecklenburg, who makes periodical trips to these parts. Wainwright, Hotel, April 10th, Edgerton, April 11th, and Chauvin, April 12th.

\$200 DONATED BY W.A.A. FOR AGRICULTURAL ORGANIZATION

This Sum will be Passed over
to Agricultural Society
at Early Date

ELECTION OF OFFICERS
Dr. Watson Elected President
of Athletic Association --
New Proposals

The granting of such a magnificent sum as \$200 to an agricultural society by an athletic association is something not often heard of in the West and at any rate in these parts of Alberta. At a meeting of the members of the local athletic association, held on Friday evening last, the above sum was ordered paid over to the agricultural society to foster and encourage this important organization. A surplus of \$304.00 is the total of the monies now in the treasury of the athletic association and in consideration of the fact that more than one half of this amount has been donated to such a good cause, few complaints will be forthcoming from either of the organizations.

Furthermore, the donation was not made by a few of the members but by a most representative and enthusiastic gathering of local sports, who recognized that the agricultural society was well worthy of whatever support could be rendered. The matter will be brought before the members of the athletic society on Saturday next and it can easily be imagined with what appreciation the donation will be received.

Officers for the year were also elected at this meeting and a most representative aggregation selected. President Forster retired from his office, pleading pressure of work and lack of time in the proper performance of his duties. Dr. Watson, who started the association in the town, is the new president, and from his knowledge and experience in practically all lines of sport, the choice was well made. The complete list of officers and executive members follows:--

Patrons: M. Douglas, M. P. A. Bramley-Moore, M. P. P. Hon. Presidents: H. Y. Pawling, G. L. Hudson.

President, Dr. W. A. Watson. Vice-Pres. R. A. Snyder. Treasurer, W. J. Munson. Secretary, N. E. Cook. The following executive was also appointed:-- H. V. Fieldhouse, J. L. Gerow, W. E. Washburn, M. L. Forster, John McIntyre, G. H. Beaudry, W. J. McLean, Geo. Richardson and A. E. Mills.

Other matters of an important nature were also brought before the meeting, chief of which was the departure from strictly amateur sport and the removal of the club house from its present location to the site at the traps. The former was left to the executive to decide and the latter authorized by motion of the meeting.

DONATE TO FIRE BRIGADE

After the conflagration at the home of Dr. Middleman's last week, when the local members of the fire brigade succeeded in saving the residence from destruction, the brigade was presented with a cheque for \$10 from both Dr. Middleman and his father-in-law, Mr. George Smith, in recognition of the services the brigade rendered.

Double Wedding Being Held this Afternoon

Home of James Taylor of Edgerton is Scene of Very
Happy Event

A double wedding is taking place at Edgerton this afternoon and three of the principals in the happy affair are well known here and in this vicinity. Mr. Herbert Carbert is being united in marriage to Miss Winnie Taylor and Mr. Hubert Griffin, of Curman, Man., is being joined in wedlock to Miss Myrtle Taylor. The bride are the daughters of Mr. James Taylor of Edgerton, at whose home the ceremony is being performed by Rev. Mr. Pomeroy.

14 APPLICATIONS FOR CONSTABLE POSITION

Former Policeman, Hailing from
Cape Breton, Gets Appointment
as Policeman; Possesses
Former Experience

**COUNCIL WILL CONFER WITH
BOARD OF TRADE RE-MILL**

After the submission of fourteen applications for the position of town policeman, the office is now filled and Mr. Gordon Walton of Nova Scotia, but more recently of Edmonton is the new guardian of the law. Decision was arrived at this morning by the Finance Comm. of the municipal council, and the choice made from the above number of applicants. The appointment by the Finance Committee arose out of a motion to that effect at last night's meeting and the new policeman is already here to start on duty with the first of the month.

Council Proceedings

Several communications of an important nature were read at the meeting, one from the Lush Co., offering to submit tenders on printing work; another from Coun. Alexander, complaining that dead horses at the nuisance ground were a source of annoyance. Both communications were left with their respective committees.

President James of the Board of Trade was present and laid before the council a telegram received from C. E. Bird, practical miller of Minneapolis, who is considering the construction of a flour mill here. Mr. Bird will be here tomorrow and as a result of last night's conference, the council will again confer with the board of trade as to the offer of sufficient inducement to Mr. Bird.

Coun. Beaudry, Chairman of Property Comm., reported that the rink had been closed for the season and suggested that an inventory be taken at once on town property and that stamps be obtained to protect same by marking. The report was adopted as read.

An account from L. P. Hussey was laid before the council, covering expense caused by typhoid infection to the extent of \$150. The account was referred to Town Solicitor Fieldhouse for report.

Secretary Fieldhouse enquired as to whether or not the council could see fit to make arrangements, regarding his increase in salary as secretary. Coun. Crawford thought that the secretary should submit a request for a certain increase, at which time it could better be considered by the council as a whole. This will probably be done and discussed in committee on Tuesday evening next.

S. G. Lewis, of Chauvin, has been confined to his home for the past few weeks, but is gradually recovering from his attack of typhoid.

LOCAL MEN INVEST IN SASKATOON PROPERTY

A. E. Mills and R. B. Davison Buy
62 Lots in One of Best
Sub-divisions

**C.N.R. SHOPS WILL BE ADJACENT
Street Car Line Will be Projected
and Will Pass this
Property**

Several local parties have of late invested quite heavily in Saskatoon real estate, the more recent being Mr. A. E. Mills, of the Wainwright Realty Co., and Mr. R. B. Davison, manager of the Union Bank here. Mr. Mills has secured upwards of fifty lots at Saskatoon, which are being placed on the market, to which effect a large advertisement appears with this issue. Mr. Davison, who was in the Union Bank at Saskatoon for sometime, previous to coming here, purchased about twenty-five valuable lots in an adjacent sub-division.

Already upwards of ten Saskatoon lots have been disposed of to local purchasers.

WILL NOT LEAVE TOWN

Persistent rumors are affixed to the effect that Dr. Middleman will leave town and practise his profession elsewhere. These reports have come to the attention of the doctor, who emphatically denies them. He further states that he is here to stay and after working up a good practise would be very foolish to leave. He has but recently entered partnership with Dr. Little, with offices on Second Avenue.

SEEDING WILL START SOON

Gilt Edge will Seed Next Week if
Weather Continues Fine

It is a prevalent opinion among district farmers that if the present fine weather continues, seeding will be started next week. This will throw it into the first week in April and about two weeks later than last year. The first seeding in the district last year was done by Vern Graham, who sowed wheat on March 21st. Even in the Gilt Edge district, where seeding is usually a week or more behind these parts, Coun. Plaxton states that seeding will start next week sometime.

TRUSTEE P. E. ROSS THROWS UP SPONGE

**Ex-Chairman of School Board Re-
signs from Office -- By-Election
is Now Necessary**

**WILL BE CONSIDERED AT
NEXT MEETING OF BOARD**

School Trustee Ross has resigned his seat on the local school board and a bye-election will now be necessary. The formal resignation was tendered Secretary Barr last week and the matter will be brought before the board at the next meeting.

The resignation of Trustee Ross has been foretold in municipal circles for sometime past, following the election by acclamation of a certain trustee, who, it is claimed, was not suitable to Mr. Ross.

Trustee Ross was lately chairman of the school board and until Trustee Washburn was elected to that office. The new trustee to be elected will sit until the close of the year.

GEO. A. BROOKS SUCCUMBED TO TYPHOID

Popular and Well Known Train
Despatcher Suddenly Ex-
pires at Edmonton --
Respected by All

**REMAINS TO BE IN-
TERRED IN ONTARIO**

Contracted Fever Here and In-
fection went Hard
from Start

The citizens and especially the railway men of the town were shocked on Thursday morning last to learn of the sad and unexpected death of Mr. George A. Brooks, who for the past two years had been employed by the G. T. P. as despatcher at this point. The late Mr. Brooks died on Thursday morning at 11.30, at Edmonton General Hospital, where he was taken immediately after he contracted typhoid fever here. Although the deceased was in splendid health previous to his illness, it was thought from the first that he would have a hard fight for life as he was a robust man and weighed more than two hundred. A few days previous to his death, reports were current that he was steadily improving and had passed the danger point. The announcement of his death naturally caused no little surprise and greater regret.

During his illness, the deceased had several hemorrhages, which were indirectly responsible for his death. For the last three weeks prior to his death, although he recognized her but once, during that time, she it was, who accompanied the remains through here on Sunday's express, en route to Ontario.

The late Mr. Brooks, who was in the thirty-fifth year of his age, was generally popular and respected by his numerous friends, both here and in almost every town along the line. He was well and favourably known and was a great favorite among the railway boys.

Four sisters and two brothers, besides the sorrowing parents, who reside in Thedford, Ont., survive to mourn his loss and they have the deepest sympathy in their great bereavement from all local acquaintances. Interment will be made in the family lot at Thedford.

Chosen Friends Form Strong Council Here

Organizer Mallett Expects that
Lodge will be at Least
Forty Strong

A local council of the above order was organized here on Friday evening last by Provincial Organizer J. H. Mallett. Twenty-two applications for membership were considered and accepted on the charter list. The following officers were elected for the balance of the year.

Past Councillor, James Ward
Chief Councillor, C. G. Isted
Recorder, H. W. McLeod
Treasurer, J. L. Gerow.

The remaining officers will be elected at the next meeting on Friday evening of this week, when Organizer Mallett expects to close his charter list with over forty members. The Order is twenty-five years old, and is purely Canadian, with the head office at Hamilton, Ontario. It has over 600 councils in Canada, boasting of

Continued on Page 10

RURAL ONTARIO IS NOT DECAYING

Statistics Show That Farmers Are Producing More Than Ten Years Ago

Since the results of the Dominion Census have been published, many people have received the erroneous impression that rural Ontario is in a very decadent condition. An examination of a few facts taken from provincial reports prove that the farmer province of the Dominion is far from being in a state of decay.

Fewer Farmers but Greater Wealth.
Though smaller in numbers than in the year 1900, the farmers of Ontario are producing a more valuable output than ever before in the history of the province, and the assessed value of their lands was never as great as at the present time. This popular estimate places the number of farms in Ontario at 175,000, and the annual output from the fields of those farms is generally valued at \$450,000,000. These figures hardly account for the entire agricultural worth of the province. In the first place, it is questionable if there are any more than 150,000 farms in Ontario. The past ten years have been a period of migration in the farming world as well as in that of other industries, and the form of one hundred acres has rapidly passed out of sight. Fewer people hold more land than at the beginning of the century, and the farm of two hundred and three hundred acres has become the unit. Such is the condition at the present moment, however, the number of real farms in this province would be more nearly 150,000 than 175,000, but their value is considerably greater than when the number did amount to 175,000.

The Farmer's Increased Income.
Two hundred and fifty million dollars has been given as the annual value of Ontario's field production, but there is every reason to believe that this amount falls short of the mark. Says Mr. C. C. Jamieson, the Deputy Minister of Agriculture, who first quoted these figures, admits that the estimate is too low. The field crops when turned into beef, butter, cheese and eggs are greatly enhanced in value, and would be worth in a normal year at least half a million dollars. But for the sake of comparison Mr. Jamieson's conservative estimate of \$250,000,000 shall stand, and thus we have every farm in Ontario earning a yearly income of \$1,500. Fifty years ago the value of Ontario's agricultural output was placed at \$5 millions, and ten years ago it was not more than a hundred millions. The number of farms to have in that one hundred years was larger than now, so that the average income to each farm was considerably less than \$1,500. In fact, the average income in 1901 was about \$600, according to calculations made from statistics published by the Department of Agriculture. This means that the Ontario farm of today is giving to its owner returns that are at least 160 per cent. greater than they were in 1901.

Land Values Higher.
The growing value of the output of the farms has only resulted in one thing, and that is the increased value of the land. Thus, the latest records of the assessment of the rural areas show that the farm lands of Ontario are worth over \$103,000,000 more than in the first years of the last decade. To make the comparison still more striking, the assessed rural land of Ontario is worth \$10 an acre more than in 1901, and another significant fact is that the area of these lands has extended in the last ten years fully 1,500,000 acres, showing that farming is actually becoming a more widely followed pursuit in Ontario. This seems almost impossible when the Dominion census shows such a great decrease between the years 1901 and 1911, but it only proves that even with less labor certain kinds of farming can be developed in Ontario and found exceedingly profitable.

An Exploited Fallacy.
Just one more proof of the fallacy contained in the charge that rural Ontario is in a state of decay. The land, buildings, implements and live stock owned by the Ontario farmers numbers about \$1,253,000,000, as compared with \$950,000,000 ten years ago. In other words, the average value of the Ontario farm to-day is \$5,000 as against \$5,000 in 1901. It is true that prices of farm products have advanced nearly 50 per cent. in the past ten years, but the marked increase in the total value of the annual output and of actual property during that time can only be due to the fact that the productivity of the farms has also increased. This greater yield of produce is merely the result of improved methods and a gradual increase during the last five years, of workers in the country.

The Stimulus to Production.
And the stimulus to all this improved agriculture with its increasing values, is the growing demand for food in Canada, as much in the Western Provinces as in the Ontario towns and cities. With the farmers in the great Western half of the Dominion producing to supply an export trade, it behooves the farmers of the other half to produce with a view to supplying the home market, and the statistics of the country's trade show that this is precisely what is being done.

Many sufferers from rheumatism have been surprised and delighted with the prompt relief afforded by applying Chamberlain's Liniment. Not only does it relieve the pain, but it requires no internal treatment whatever. The liniment is for sale by druggists.

Twin-City Gas Tractors

These are Built in Two Sizes "40 H. P." and "25 H. P." on Drawbar

THE TWIN-CITY "FORTY"

is built by the Minneapolis Steel and Machinery Co., who are universally conceded to be the leading Gas Engine Builders in the American Continent.

The Twin-City "Forty" is an all-Steel Tractor that is actually guaranteed to do the work of 40 horses in the field or on the road, is the most powerful, most durable, most substantially built Tractor that has been produced and has given absolute satisfaction in the field everywhere.

The Twin-City "Forty" to-day stands alone in the Traction field, representing the highest development of machine construction as applied to Traction Engines, a machine that has proven itself to be the "Mensch" of the Field wherever it has gone.

The Twin-City "Forty" contains no element of uncertainty. It embodies no experiments. Every part has been tried in the heaviest kind of work. Every principle in its construction has gone through a time testing ordeal of hard service.

The Twin-City "Twenty-five" is a smaller Tractor embodying all the characteristics of the "Forty". It is light, powerful, very simple and easy to handle.

A TWIN-CITY FORTY has already arrived and any one desirous and seeing it should call and let us demonstrate its superior features.

DE LAVAL Cream Separators

THE WORLD'S STANDARD

USED EXCLUSIVELY BY 98 PER CENT OF
WORLD'S CREAMERIES

Ten years ago there were a dozen different makes of creamery or factory separators in use. Today over 98 per cent of the world's creameries use De Laval separators exclusively. When it comes to buying a separator why not profit by the experience of the creamery man, which qualifies him to advise you correctly. He knows which separator will give you the best service and be the most economical for you to buy. That's why 98 per cent of the world's creameries use the De Laval exclusively. There can be no better recommendation for the De Laval than the fact that the man who makes the separation of milk a business use the De Laval to the practical exclusion of all other makes. They know from experience.

Easiest to turn, easiest to wash, skims the cleanest, lasts the longest.
Price \$65 and \$75 on terms. SOONER OR LATER YOU WILL BUY A DE LAVAL

WAINWRIGHT, ALTA., WEDNESDAY, MARCH 27TH, 1913

THE PARTY ORGAN

Journalism in Western Canada has been experiencing a revolution during the past few years and today western publications differ to a large degree from those of the East. The rigid political organ is fast passing out of existence and the more independent party newspaper taking its place. Time was when no policy or proposal of the opposing party was ever agreed with and newspapers would oppose for the sake of opposing. These times, however, have changed.

Eastern Canadian publications and journals are still enshrouded in party faith and opposition strife and the reason for it is obvious to those who have followed the wide difference in public opinion between the East and the West. Western Canada has been and is persistently fighting for rights and universal recognition. The particular party in power has to a certain degree been disregarded and whatever seemed to the West's advantage favored. Firm stands have been taken on numerous occasions by political journals, when the question at issue was introduced and favored by their opponents in other issues. And it is no more than right. What should either party mean to a true Canadian? Surely it should not be regarded as superior to his own convictions and his own welfare. Such is the change that has singled out Western publications from those of the East.

Possibly the time is not far distant when every Canadian publication will fall into line and regard the political actions of their opponents in the proper light and irrespective of personal strife.

Alberta's growth and prospects for the future are well described in the few but fitting words of Premier Sitton, who said during the recent legislature, "To indicate the outlook of a province which, within the past decade, has increased fivefold in population and proportionately more in wealth, is difficult without seeming to exaggerate."

The report of Seed Commissioner George H. Clark to Hon. Martin Barrill, Minister of Agriculture, deals with the seed situation in these parts and although it is not of a very encouraging nature, it speaks of the good seed in the northern parts of the Wainwright district. It should speak of the good buffalo seed to the south.

Mail order houses play havoc with the country merchant and will continue to until such time as a remedy is discovered and applied. The majority of retailers do not realize that aggressive advertising will do much to relieve competition. The mail order houses gain prominence in this manner. Why not the smaller houses, in their own small fields.

The estimate is made that during the coming spring the fifteen gasoline and steam outfits which will be in the district will be able to break up twenty thousand more acres of land. This is truly going some and further goes to show that many thousands of acres of virgin soil will be torn up before summer. If the same expense was applied to mixed farming it would pay better.

Our conclusion is that practically every sub-division agency dealing in Wainwright property is about as good as misrepresenting as the famous North American Bonds Limited, who have apparently died a natural death from natural conditions. Such bombastic advertising as is being done in Saskatoon by a representative of the National Townsite & Colonization Co. has now given that company a black eye. A few are still left, however, who have not as yet been reported as envying on a campaign of gross misrepresentation.

Greed for gold and the sticking lures will cause real estate sharks to do almost anything in this age of alicium tremens and pelicans when the whole outfit of outside subdivisions have been sided up, they could be tied in a bag and a blind choice made for the crookedness of one of the lot. The consensus of opinion in the West is exchanging and real estate sharks have seen their best days.

Rural telephone lines have been under discussion in this province for years past, and now that Alberta has entered a year of boundless prospects wouldn't it be a good idea to renew agitation? This district needs it; that district clamors for it and phones are extended in one section of the province only—the South.

It is claimed by the residents of Chauvin that the editor of their paper is a suffragette. Well, suppose she is, what reason is there for wanting to give her the "high ball"? She is surely entitled to her opinion as much as her neighbors are entitled to theirs. At least this is a country where free speech is permissible.

Saskatoon is about as independent as the next city in the West. Andy Carnegie offers a thirty dollar library, the city council refuses and all we can say is, "Bravo, Saskatoon." Carnegie wants too much publicity and a man like that deserves to get the cold turn-down. Saskatoon will achieve success by local effort.

Immigration to Canada from Great Britain never looked more promising than at present. The coal strike now on in England has played an important part in the universal unrest in that country and a desire to seek a new world. Canada will have an unprecedented influx this year and before long 2,000 immigrants landed at Halifax last week.

Col. Sam Hughes was up against it in the Dominion House last week for having purchased Ford Automobiles from a Liberal firm. A complaint was lodged by Oliver Wilcox, Conservative member for North Essex. Now perhaps Mr. Wilcox had a private axe to grind and wanted a little velvet himself. Politicians are not above this desire you know.

Well for the love of Great Britain what will Olump Clark be doing next? He now opposes immigration to Alberta and will fight it to a finish. But if Mr. Clark wishes to know—we don't fear him or his efforts in the least. In the first place, he's a four-flusher and in the second instance, he isn't taken seriously by anyone, American or Canadian.

As Seen from the Star Observatory

Erasmley Moore was about right when he said that western railway development is being held up by the scarcity of rails, which are manufactured at two points in Canada only, Sydney, C.B., and at the Soo. Who governs such a state of affairs in this country and where must we go for a remedy? It is about time that the Borden government took into the matter, if it was disregarded by the old Liberal regime.

A letter has been received at this office from a party of the East, who laments the fact that he purchased a lot in Central Park, yes in that notorious Central Park. He wants to know where it is and how far it is from the post office. Oh, laws! It's away to the devil and gone on the prairie and still the virgin soil is of the best. We would suggest that he erect a monument on it that will remind him of his foolishness for fifty years to come.

There's at least one thing that every Canadian citizen can call his own and that is his ballot at the polls. Yet some will allow themselves to be yanked around and led by the nose by a particular party or faction, so that eventually they even lose their God-granted privilege of free speech. Socialism suggests a remedy.

If the western farmer is to retain what is due him, he must fall into line and work with the organizers and associations that seek to unite farmers in a body. The combines and trusts, the large corporations and the money interests are united. Why then cannot the farmers band together in union for their rights? Until they do, they will remain under the thumb of a mighty autocracy.

Before any noticeable signs of development in this or any other town are noted, the knucklers and "nerd do wells" must be done away with or change their beastly sentiments of pessimism and gloom. What is to be accomplished can better be done under a fair sky and with plain sailing ahead. If you're an unbeliever, why for the love of Mike don't you move out and make way for a better man?

It is rumored that an enormous strike along the line of the G. T. P. is now pending and in the event of such it will be much larger in dimensions than that of the machinists and boiler-makers. Better conditions and not wages will be demanded and in the majority of cases the employees will have numerous sympathizers. Any railroad man earns his money honestly no matter how light his work.

Gophers are beginning to make their appearance for the coming summer and district farmers cannot begin too soon to do away with the destructive rodents. It costs little for a few ounces of strychnine but the destruction of hundreds of dollars worth of grain means much to the average farmer.

The coming to Wainwright of a new French land company and known as the Quinn Syndicate adds another page to the annals of western enthusiasm. It also means that another thousand acres of land will be broken up in this district, which will ultimately represent a source of increased revenue to the town.

There certainly is a strong tendency at the present day to use the Orange order for political purposes, while the members of other fraternal societies have varied views. Personal spite, hatched to bias opinion, form a team that is hard to beat.

The progressive and extended programme of the local board of trade is receiving favorable attention by many western towns, who hold that the policy as outlined is one of the most progressive ever attempted in Western Canada. It is now strictly up to the town council and citizens to assist and follow the newly appointed board to carry out their intentions.

Tollold has experienced a split in its town council, the cause for it arising from an application by the town secretary for an increase in his salary from \$75 per month to \$100. Of the six councillors, three were in favor and three against the motion for increase. The Mayor voted and he voted for the motion, thus authorizing the increase. The question may be referred to the ratepayers.

The deadly typhoid has already claimed two victims, who contracted the infection in this town and others are still suffering from the same complaints. The snow is melting fast, winter refuse is being hauled and fifth of all kinds exposed to the air. Suppose that a contagion started. There is reason to believe that it would be worse than infection.

It is a matter of great importance to every farmer that he plant good seed and there are many who will be deceived unless extra precautions are taken. There is any abundance of seed in the West and which has a good appearance yet the germinating power is very poor. Farmers should start right away and have their grain thoroughly tested.

Universal interest is being taken in the International Dry-Farming Congress to be held at Lethbridge in October next. Men of prominence from all parts of the continent will be present and the president of the United States, whoever he will be, will doubtless attend. His Highness, the Duke of Connaught, will be in band.

M. Meeklenburg, the celebrated and experienced eye specialist of twenty-five years standing, will again be in Wainwright at the Wainwright Hotel on April 10th, Edgerton, April 11th, and Chauvin, April 12th. Satisfaction guaranteed. Rates moderate.

ENJOYABLE DANCE IN GILT EDGE SCHOOL

Last and Most Successful Affair of Season. Held on Friday Night Last—Large Attendance

GILT EDGE—One of the most successful and best attended dances ever held in Gilt Edge was given in the school house on Friday evening last, the affair being given by several of the local boys. The music, which was furnished by the Heilly Orchestra, was of the highest character and thoroughly enjoyed by all present.

A country luncheon was served at midnight, followed in due course by a number of phonograph selections and step dancing, after which the regular program followed, lasting into the "two sun hours" of the morning. At the close, all present were agreed that one of the most pleasant evenings, ever spent in Gilt Edge had been theirs.

Among those present from a distance were numbered about twenty persons, from Battle View, Paradise Valley and several from Edgerton and vicinity.

G.T.P. DOINGS

Periodical Report of Achievements of this Great System from Coast to Coast

Bids have been requested for the construction of the roadbed and building of the Southern New England Ry., which will bring the Central Vermont Ry. from Palmer, Mass. to tide-water in Providence R.I. The contracts will call for the completion of everything in connection with the road's extension on or before Dec. 31st 1913. It is expected to have trains running over the new roadbed by the end of this year.

Customs receipts at the town of Prince Rupert, the Pacific Coast terminus of the Grand Trunk Pacific Ry. for the past year amount to \$1,553,855, an increase of \$4,179,441 over 1910. The heaviest months were May and June when \$15,120.4 and \$11,224.04 was respectively received.

OWNER AUCTIONEER

- Special - NOTICE

To the Citizens of Wainwright

At a special meeting of the Board of Health held on Wednesday, the 27th inst., it was resolved that all citizens of the town should be asked to immediately clean up all loose refuse in their yards in convenient piles, for the removal thereof by the scavenger.

The citizens are therefore requested by the Board of Health, to co-operate with them in this matter and comply with their request at the earliest possible moment.

J. H. Dawson.

Philip Springer, who has been laid up with typhoid fever for sometime past, is recovering and will soon be around again.

Chosen Friends

A large membership and is in possession of a large surplus fund, which is invested mainly in Western Canada, municipal debentures.

One feature of the order is the admission of women on equal terms with the men. The insurance carries a total disability and an old age disability clause. There is also a sick

benefit protection, which is open to all beneficiary members. The order is non-sectarian and inclined to be social in its character. A full list of the charter members will follow at a later date.

Mrs. George Johnson, who was confined to the Edmonton Hospital with internal ailments, returned here last week, much improved in health.

Why Not Give Your Body a Spring House Cleaning?

It is reasonable.

You stay indoors too much all winter—you breathe the foul air—you sleep in close rooms and you eat too much. In fact your winter life is pretty much artificial and unnatural.

Then why not renovate your whole system this spring?

Take a short-cut to youth and energy

—Nyal's Spring Tonic is the thing

Sublimar and unobscure was grandmother's way. She also scrubbed her fingernails off every spring.

But Nyal's Spring Tonic is a regular up-to-date vacuum cleaner by comparison. Gives new snap and vim—puts life and spring into your muscles—makes you feel fit and ready.

It is isn't worth a dollar a bottle you can have your money back cheerfully.

Unreserved

AUCTION SALE

At Mr. James Hay's Ranch, 3 Miles North of Calgary on the Edmonton Trail

65 Head of Holstein Cows

20 Head of Horses

Instructed by Charles McCloy of Ontario, I will sell the unmentioned

65 head of first-class Holstein Cows, 7-8 pure bred all fresh or close in and have been shipped in here by Mr. McCloy to be sold absolutely without reserve.

I have personally inspected these cows, they are a first-class bunch and I think are without exception the best lot of Cows I have ever had the pleasure of selling in Alberta.

I will also sell 20 HEAD OF HORSES all broken and a few of them are first-class mares in foal.

Bids will leave the Central Horse Repository 2 doors from Central St., on 6th Ave. East at 10 o'clock on the morning of sale.

Terms Cash Luncheon Provided No Reserve

A. Layzell, Auctioneer

100 6th Avenue East, Calgary, Phone 2273

LOCAL

Get prices on Formaldehyde at the Wainwright Pharmacy before you buy it. It will pay you.

George Reynolds, who is at present homesteading near Lloydminster, rode into town yesterday and is here today, on business connected with the sale of the pool room, formerly owned by him. He will remain in town for a few days.

At a meeting held in the local school on Wednesday last, the school boys organized their first football team. The election of officers resulted as follows:—President, Mr. McLean; Hon. Pres. Mr. Forster; Manager, Cecil Ward; Captain, Arthur Olug; Sec. Secs. Walter King; Committee, Emory Fountain, Annesley Kenny, Jack Primrose.

District Orangemen will meet in Washburn & Mills' Hall on the first Thursday in April. The lodge has met at Greenfield, heretofore and will probably be held here in future, instead of at that point.

Mr. E. A. Coolen, formerly of Halifax, N. S., has arrived here from the East and will likely remain with his brother, Mr. T. C. Coolen, who is in the firm of Messrs. Cassidy & Coolen. He is much impressed with Wainwright and he is here with the intention of following his profession of book-keeping and accountant work.

Nyal's Spring Tonic banishes that tired, lazy feeling that comes as a result of the too close confinement of the winter months. Only one dollar a bottle at the Wainwright Pharmacy.

On Saturday afternoon next, in the furniture store of P. D. Laird & Son, the Ladies' Aid of the Presbyterian Church will hold a sale of home cooking and a ten cent tea. A similar sale will take place on the first Saturday in April.
